1. Introduction

The main purpose of this patch is to release a new version of the Compensation & Pension Record Interchange (CAPRI) Graphical User Interface (GUI) that includes defect fixes to the user interface to support user interface modifications.

2. Purpose

These CAPRI Release Notes cover the application updates for CAPRI Patch DVBA*2.7*242.

3. Audience

This document targets users and administrators of CAPRI Patch DVBA*2.7*242 and the corresponding client (GUI) application and applies to the changes made between this release and any previous release for this software.

4. This Release

Patch DVBA*2.7*242 updates the CAPRI GUI to be 508 compliant by implementing the bug defect remediations for this year's audit.

CAPRI GUI Veterans Benefits Administration (VBA) Users are experiencing mislabeled clinical documents in Veterans Benefits Management System (VBMS). This has been updated to show the correct document type and subject.

CAPRI GUI Users are also experiencing wrong patient demographics being displayed in the PDF footer after signing a Disability Benefits Questionnaire (DBQ). This patch ensures that CAPRI will display the correct patient demographics information in the PDF footer.
